

The background is a light-colored, marbled pattern with soft, flowing lines in shades of white, light gray, and pale blue. In the center, there is a rectangular box with a thin, dark gray border. Inside this box, the word "ABOV" is written in a large, elegant, serif font. The letter 'A' is slightly slanted to the right.

Designing the future

We are Abov, specialising in creating jewellery rooted in today's youth's philosophy – Being E.A.S.Y.

The youth of today is more responsible and conscious about the environmental and social impact of their choices which draws them closer to brands that align with their ethos, philosophy, and ideologies.

Hence, we at Abov have adapted to the perspective of today's youth and curated specialised Moissanite jewellery – ethically sourced, created, and designed.

Real. Valuable. Beautiful.

Moissanite can stand the test of time like no other gemstone, almost as hard as diamonds. It is strong, as strong as our value and our believe to take care of the future to make a better world.

Just like wine, pearls, or truffles are created in a controlled environment. Moissanite is created by pressure and heat that creates an earth-mined diamond. Whereas diamonds requires significant amount of resources and causes pollution, Moissanite is more ethically created.
