LUNA Diamonds

MAGIC COLLECTION

Magic Collection

The Magic setting is an innovative technique evolved from the traditional cluster diamond jewellery.

By layering the diamonds in a specific formation without using extra prongs, the diamonds forms a center which can compete with a large carat diamonds in both sizes and shine.

Our magic collection is truly magical in design & craftsmanship. This ground breaking technique mixes with out-of-the-box design provides the trend setting diamond jewellery the world has yet to see.

1. At first the "center diamond" that is held by the multiple prongs is set.

2. Then the lower level diamonds are set in specific places to help with the illusion of solitaire.

3. Finally the outer or topmost level of diamonds is set giving more stability to the lower level.
