JEWELRY

Regardless of time, it is every woman's dream to love and to be loved in return. Esmé, which means "to love" in French, is a new jewellery brand celebrating the beauty, delicacy and purity of women's heart. Each piece of Esmé jewellery is a product of elegant design and impeccable craftsmanship, with its soft contours and pastel hues setting it apart from other jewels. The collections have a distinctive European touch: they do not intend to shock or be provocative; instead, they present subtle yet stylish alternatives in jewellery.

AURA

Precious stones in rich hues, including rubies, sapphires and the likes, radiate a vivacious spirit and energy. Since the multi-coloured gemstones are the souls of the pieces in this collection, only the finest jewels are carved into gorgeous pieces. The collection is a testimony of excellent craftsmanship, as every piece is paved with layers of precious stones with the greatest precision to bring out the natural, beautiful glow of the gemstones
